-8 years of childcare experience

I have been doing childcare since my teens, and have worked as a childcare assistant at Mayacama Golf Course for 4 years now. I have been doing sports for most of my life, coming from a competitive family with a variety of sports and odd athletic skills. Because of this I am pretty competitive yet at the same time I know when to lose. I like to consider myself a master of the arts; with accurate stick figure representation of people and a singing voice that will have people fall to their knees in tears. I will sing to any song, dance if anyone wants to dance, and run to the ends of the earth to capture a child- it's my job and pleasure.
